

doseit

Dosage Control System

This innovative new range of products has been developed by Clover Chemicals Ltd especially for companies employing large numbers of cleaning staff, such as contract cleaners and hotel groups. The doseIT range is so named because it has been designed to simplify the **Information Transfer** to users, making the training of staff significantly easier and complimenting the hugely successful Clover **IT Range**. The unique features of the range are its **dosage control cap**, **colour-coded products** and **clear, pictorial labels**. DoseIT requires no dispensing equipment as the dosage control cap cleanly & safely dispenses 20mls of product providing strict portion control and an alternative to static dosing systems.

- ✓ Safe Dosage
- ✓ Simplistic System
- ✓ RTU labels
- ✓ Multi lingual training sheets
- ✓ Colour coded system
